

INFORM ONLY: 2025 ACO REACH Participant Provider Termination Notification

December 1, 2025

Dear St. Luke's Provider,

We are changing CMS Programs, specifically, we have terminated the ACO REACH program and will be participating in the Medicare Shared Savings Program (MSSP). The below notification of termination is required by CMS upon termination of the ACO REACH program. You will receive a new letter notifying you of our participation in the MSSP in the future.

Notification of Termination

I write on behalf of St. Luke's Health Partners Accountable Care Organization to inform you of our exit from the ACO REACH program effective December 31, 2025. At that time, the corresponding participation and services under the program will end and the Provider Agreement will terminate, subject to any ongoing requirements or obligations under the ACO REACH Participation Agreement.

Please note that the obligation to preserve all ACO REACH records continues for ten (10) years following the termination of the ACO REACH. Your organization is no longer permitted to market the St. Luke's Health Partners Accountable Care Organization ACO REACH program moving forward, and implementation of any Benefit Enhancements and Benefit Engagement Initiatives are terminated.

Best,

Amy Gonzalez, President, St. Luke's Health Partners  
St. Luke's Health Partners Accountable Care Organization
